

## ENVIRONMENTAL POLICY

NRC endeavors to develop its services to better cater for the community needs based on the latest scientific methods of drug addiction treatment.

National Rehabilitation Centre (NRC) commits itself to preserve the environment by ensuring activities are managed effectively as well as promoting a better understanding of environmental matters among our stakeholders.

Therefore, we have developed and integrated into our day-to-day activities an environmental management system. We utilize this system to monitor and continually improve the environmental performance of our organization.

- We shall protect the environment by minimizing the waste and emissions from our operation and processes were possible
- We shall achieve a high level of environmental performance, gaining and maintaining approval to ISO 14001.
- We will consult with and involving our employees.
- We shall provide adequate information, resources, supervision and appropriate training;
- We shall assess all environmental aspects and impact and managing them effectively so they are eliminated or reduced as far as is reasonably practicable;
- We shall fulfil the compliance obligations related to center's environmental aspects.
- We shall measure and monitoring performance in environment management;
- We shall ensure the policy is understood and implemented effectively at all levels within NRC.
- We will periodically review this policy to ensure it is suitable and effective;

  
**Dr. Hamad Abdulla Al-Ghafri**  
**Director General**
