

## OCCUPATIONAL SAFETY AND HEALTH POLICY

NRC endeavors to develop its services to better cater for the community needs based on the latest scientific methods of drug addiction treatment.

The National Rehabilitation Centre (NRC) recognises that it can only achieve the goals of the mission statement and its strategic objectives by improving the Occupational Safety and Health (OSH) performance of its activities and by understanding the needs of the patients, their families and their communities in the local society and stakeholders now and in the future.

The leadership of NRC is committed to:

- Achieve a high level of OSH performance, gaining and maintaining approval to Abu Dhabi Occupational Safety and Health System Framework and ISO 45001;
- Implement this policy through continually improving our OSH management system.
- Provide safe and healthy working condition for the prevention of work related injury and ill health.
- Consultation and participation of workers and their representatives.
- Monitor the health of those who may be exposed to significant work-related health risks.
- Eliminate hazards and reduce OSH risks through and effective risk management.
- Fulfil legal requirements and other requirements related to OSH hazards.
- Measuring and reviewing OSH targets and objectives.
- Working towards international best practice in providing patient protection and health care for special needs patients;
- Provide adequate resources, supervision and appropriate training to enable employees to work safely and use risk prevention techniques, including due consideration of the health and safety of themselves and others; to enhance employees health and wellbeing.
